

Mobile Banking Privacy Statement

This Mobile Banking Privacy Statement describes the types of information that is collected (directly or through service providers) in connection with the mobile application ("App") and related services (collectively, the "Services") offered by Rockland Trust ("the Bank"). This Privacy Statement is intended to supplement the disclosures in the Bank's Privacy Policy that you have already been provided with in connection with other products offered or provided by the Bank. In the event of any inconsistency between the Privacy Policy and this Privacy Statement, the Privacy Policy shall govern.

Why We Collect Information

The Bank's App(s) may request your permission to access information, media, or features on your mobile device, such as location, camera, contacts, and/or other features to enrich App features you have enrolled in, simplify your user experience, and improve our Services.

Information We Collect

The type of information we may collect regarding your mobile device can include:

- Device settings
- Unique device identifiers
- Information about your location
- Information about your contacts
- Analytical information that may assist with diagnostics and performance

Some information is collected automatically and does not require any action on your part.

- For your convenience, you may be asked to grant permission for access to your mobile device's contact list. This information may be collected when you use certain Services that are dependent on your mobile device contact list (such as Person to Person Payments)
- For your convenience, you may be asked to grant permission for access to your mobile device's geolocation data. This information may be collected when you use certain Services that are dependent on your mobile device's location (such as the location of an ATM or branch locations).

Before granting access to this information, you may be prompted to give the App that permission. If you do not wish to grant that permission, you may decline. If you decline access to your mobile device, some of the functions of the App may not be available, e.g. if you decline access to your camera, then you will not be able to deposit a check via the App. If you later change your mind, those permissions can be updated in your device's settings.
